Jaliley College,
Birmingham 8.
Nov. 14th/37.

Dear Ann,

I expect you will be rather surprised to hear from me, & still more when you see the address.

Yes I have drifted into the midlands & am now at the above College as resident tutor taking P.T.

I remember that you said you lived somewhere near Birmingham, so I thought that I'd drop you a line. Middleton is here too & we are doing the job between

us. Well you old phytocreat how are you getting on? Bedded down by now I expect, or have you gone galivanting over half of Europe, looking at P.T. notice

I said looking, because if I thought anyone was making you do it "I see the -". What do you think of Jack Foster & his organization? Jolly good work wasn't it? He's properly fallen on his feet, I hope he gets on O.K. Have you seen any of the other lads or heard anything from them since they left? Are you married yet? Have you got your 1½ litre yet as well?

This letter seems very full of questions but somehow its a relief to me to write to one of the old crew. I suppose you don't often come into Birmingham do you?

If you do & you care to come along I should be ever so pleased to see you. Let me know when you are coming & if its lecturing Ill get somebody to put you in my room or fetch me. If its free well Ill stop

Its rather boring here sometimes when
we hasn't got much work to do like
week-ends or some evenings in the week
as you see I've no friends in Beum.

How's the Hockey going, are you playing
this Season?

Well I must ring off now
So Cherie, hope to see or hear from you

All the best.

Yours,
John (And.)
